Subject: KSIS Notification: ACT National Scores to be published September 9

KSIS Contact,

On Wednesday, September 9, KDE will begin publishing ACT National scores to those districts that previously indicated they wanted us to publish these assessment scores to them. National scores from April, May and June of 2015 will be published.

Prior to the Campus.1529 release, when KDE published assessment scores to the districts; all scores from prior years were also included. Functionality added in that release now allows us to publish data from one specific year at a time. Going forward, we can publish district scores for the current year and prior year. The new functionality does not allow us to publish scores for a particular segment of the year, so all scores for the selected year(s) will be included. If you want KDE to begin publishing National or Junior ACT scores to your district beginning with the 2015-2016 assessments, please let us know.

I hope this information will help you as you consider the time benefits to import the ACT data yourself or to let KDE publish the data to you. If you have a question about scores published to your district's site, contact Raymond Carter via email at Raymond.Carter@education.ky.gov.
